

The Northeast Positive Behavioral Interventions and Supports (NEPBIS) Network announces Endorsed PBIS Trainers!

To become endorsed, each trainer completed and met competencies of the rigorous Northeast **PBIS** Training of Trainers (**NEPBIS TOT**). As part of this work, each trainer demonstrated the ability to effectively train and support schools in implementing PBIS with fidelity. This first cohort of endorsed trainers brought a wealth of expertise to the **NEPBIS TOT**, as they were already experienced **PBIS** trainers. If you are looking for high quality, effective **PBIS** training, coaching, and technical assistance for your schools, these are your professionals.

The **NEPBIS TOT** is supported by a subcontract with the Connecticut State Department of Education (*Kim Traverso*), as part of their prestigious State-Level School Climate Transformation Grant. Faculty from the Neag School of Education's Center for Behavioral Education and Research (*Brandi Simonsen, Jen Freeman, Susannah Everett, & Adam Feinberg*) developed and coordinated the **NEPBIS TOT**.

For more information about the **NEPBIS TOT** visit nepbis.org
